

This joint can be made with the Domino or with screws. Glue must be used. If necessary a strengthening block can be glued and screwed to both pieces so as not to interfere with the clamping handles.

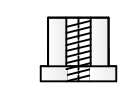

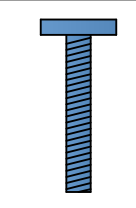

Components Used:

Lever Clamps
Axminster Guide Rail Clamp
Product Code: 103061

Fixing Screw
Axminster Threaded Knobs
Product code: 953482

Veritas Small Parf Dog

Prototype Bench Vice for use with the MFT3 or a Custom Bench top Created with the Parf Guide System
