Sandpaper
for edges
abrading

Attention:

Workbench is made from high quality beech wood guaranteeing maximum resistance and long service life of the bench.

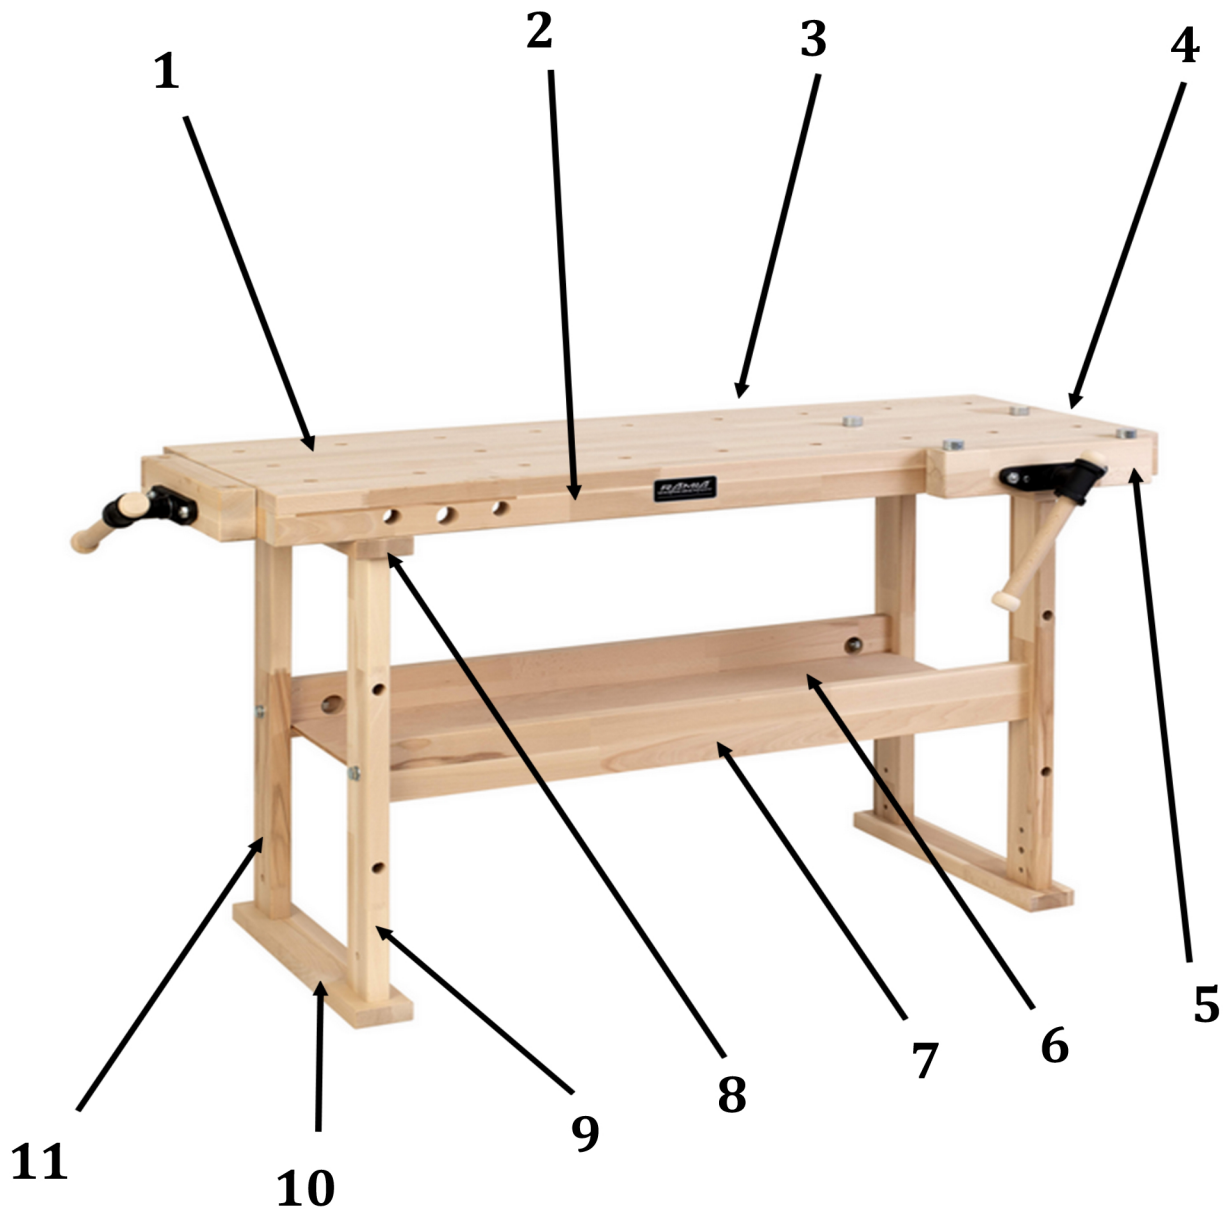

Your workbench has NO TREATMENT. Please treat your bench with a varnish or oil within 3 months of assembly. Don't forget to repeat surface treatment each 6 months. This is especially important if situated in an unheated workshop, garage or outbuilding.

To increase the rigidity of your workbench ensure that you glue the joints and bolt the bench in position. Wood is a natural product, check and tighten all screws and bolts every six months.

NOTICE: Like all solid wood products it must not be left in areas of high humidity or damp that will cause natural movement.

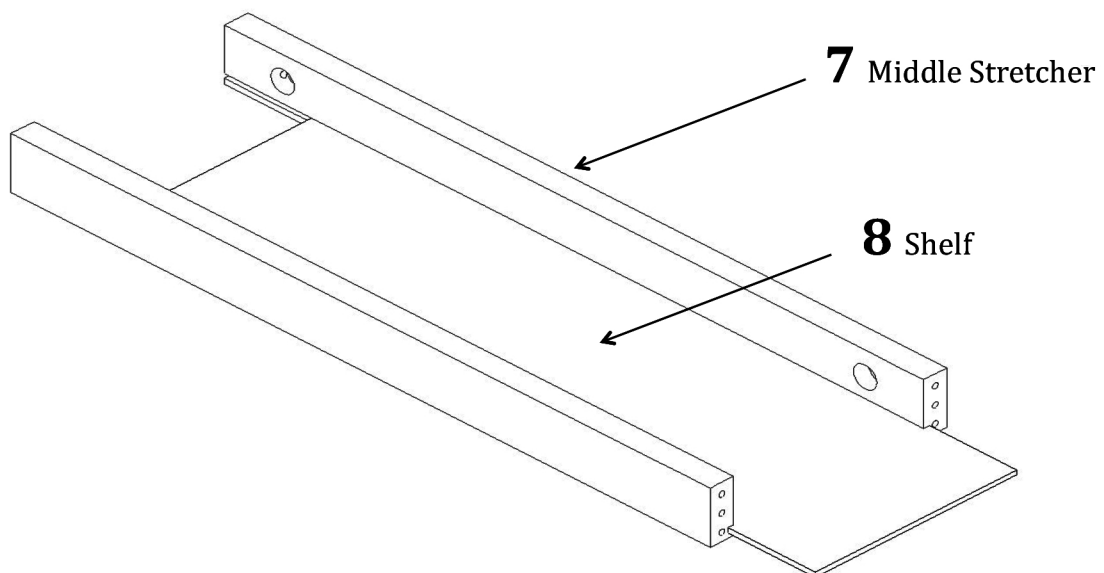

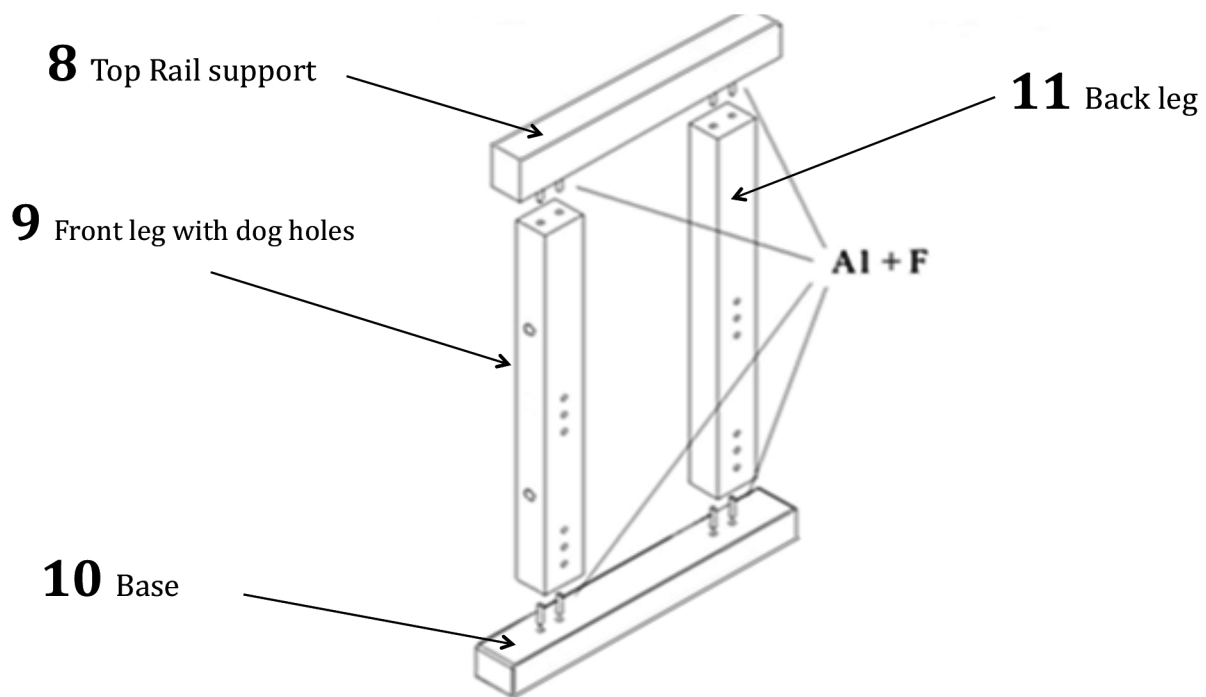

Parts	Packing 1	Packing 2	Date	

PARTS and HARDWARE LIST

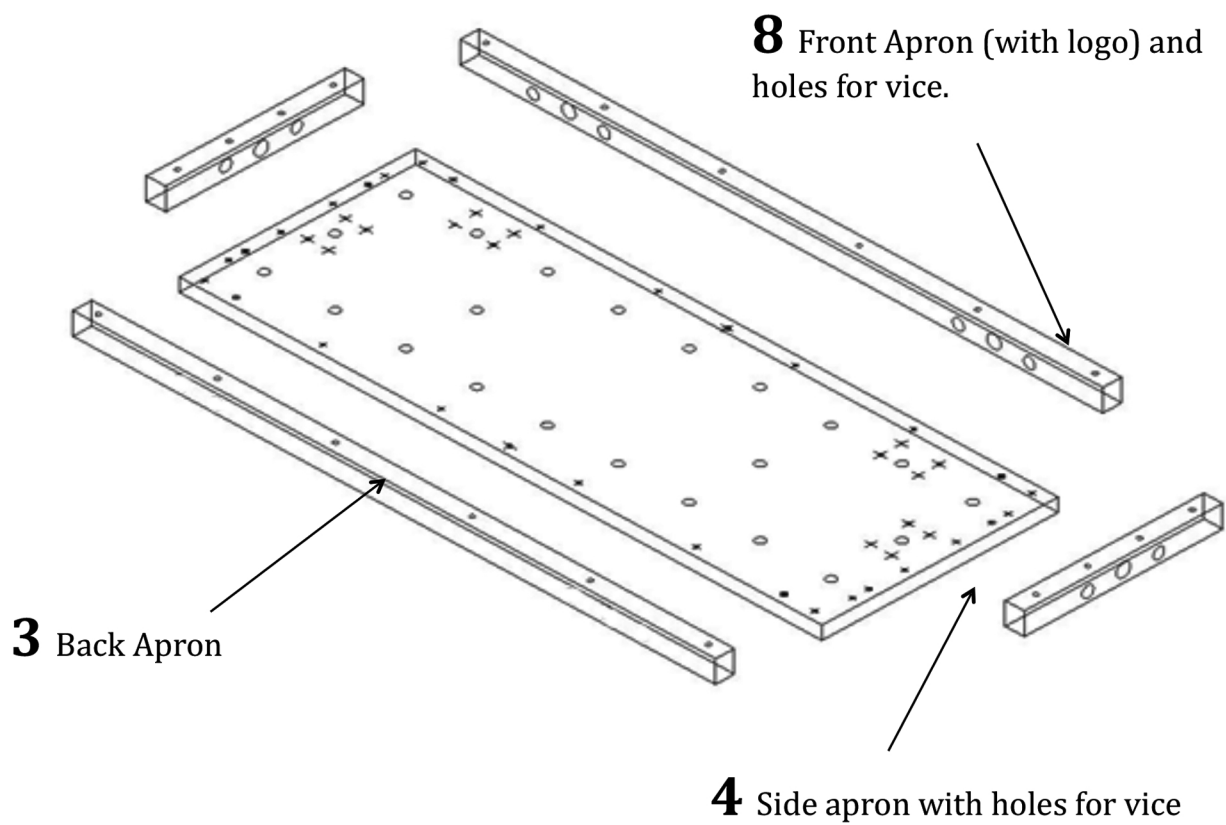

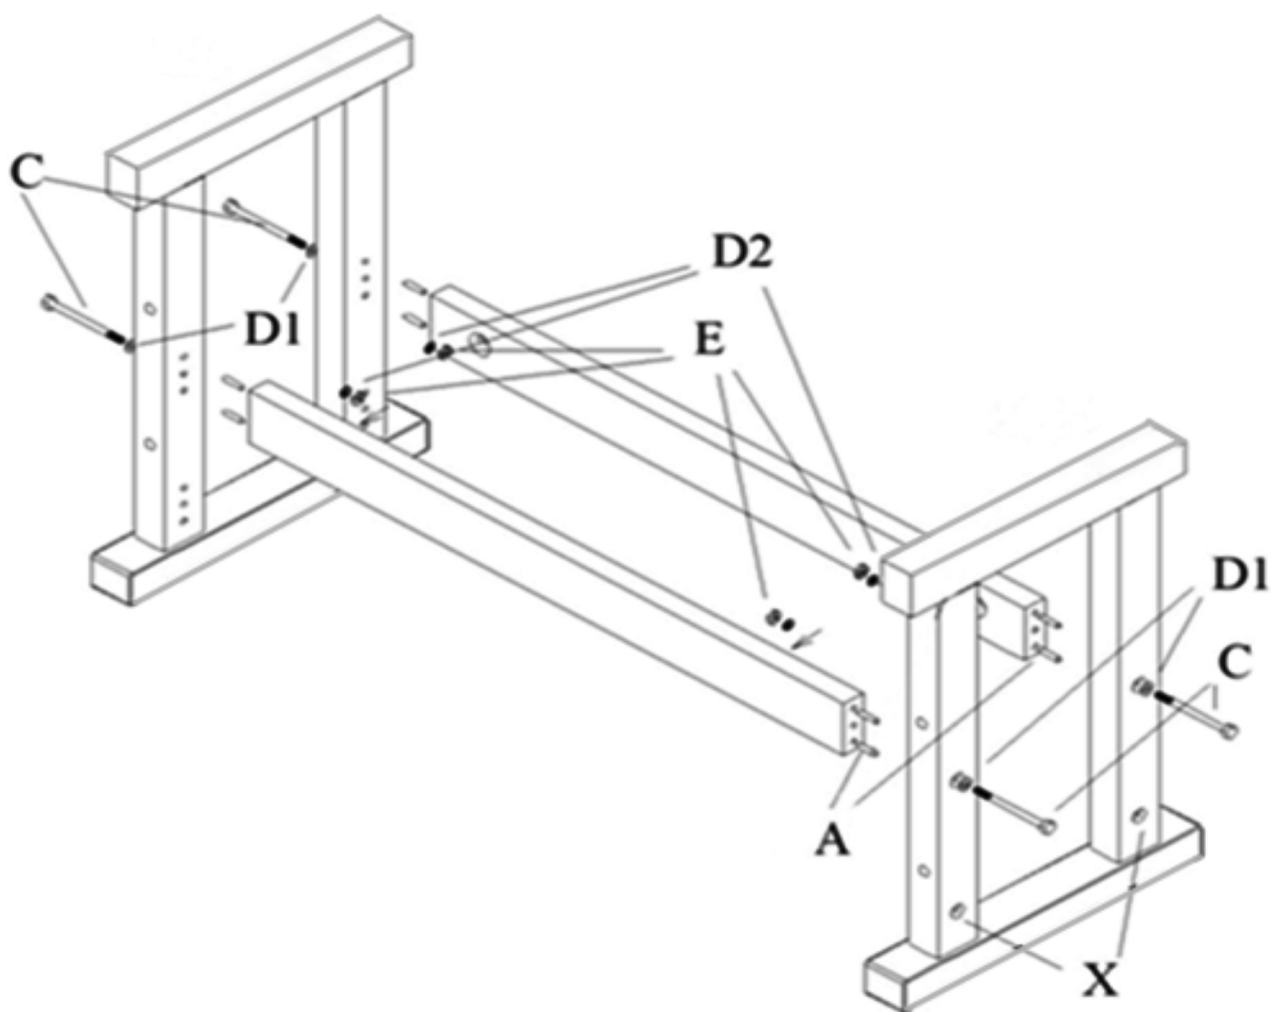

Part NO.:	Part Name	Qty	Part NO.:	Part Name	Qty
	Bench Top	1pc	6	Shelf	1pc
2	Front Apron (with logo)	1pc	7	Middle Stretcher	2pcs
3	Back Apron	1pc	8	Top Rail support	2pcs
4	Side Apron	2pcs	9	Front leg with dog holes	2pcs
5	Vice Jaw	2pcs	10	Base	2pcs
			11	Back leg	2pcs

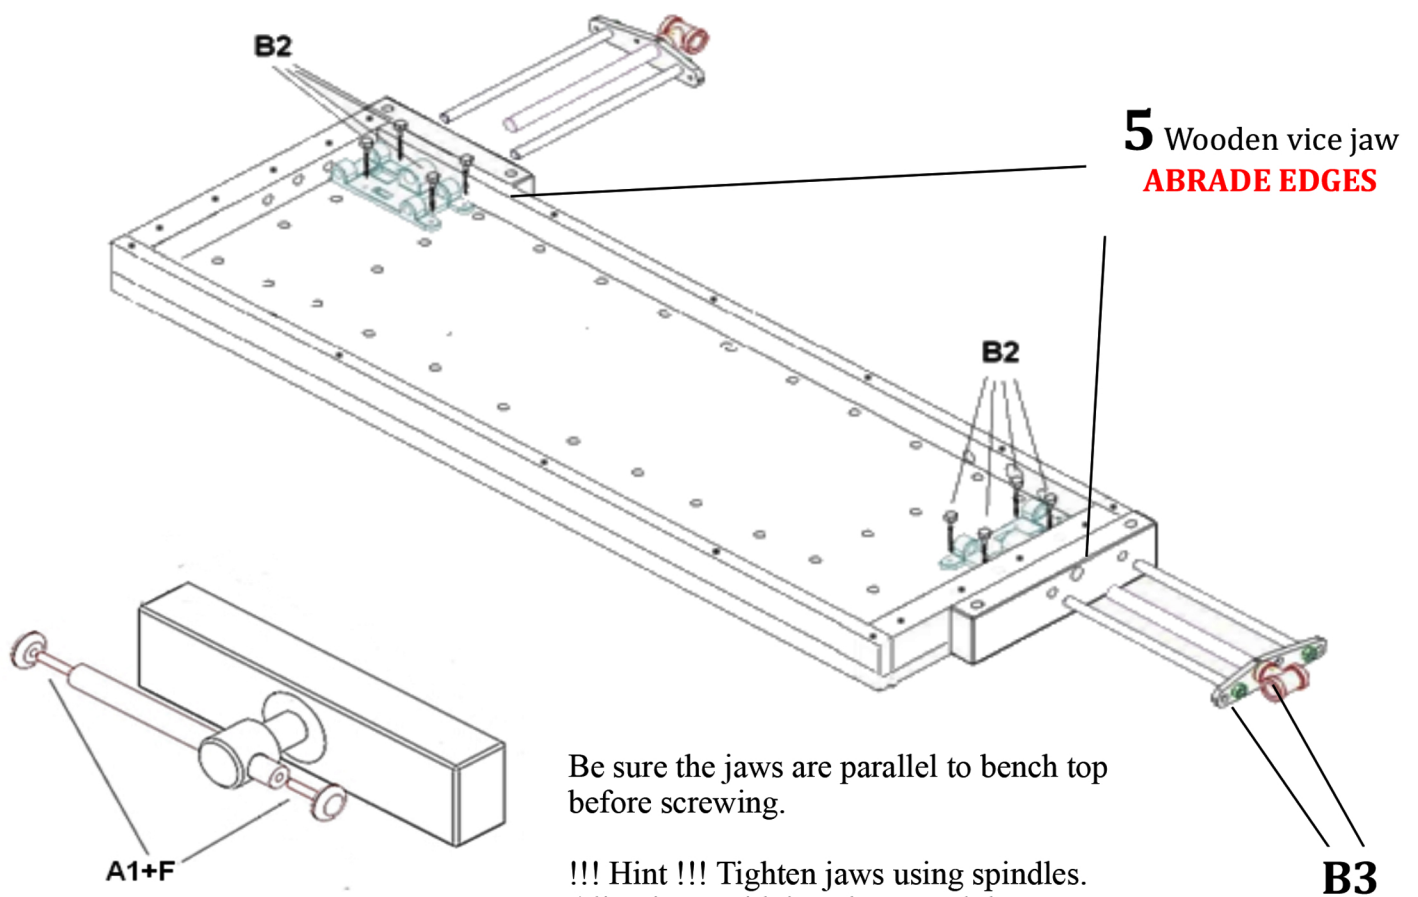

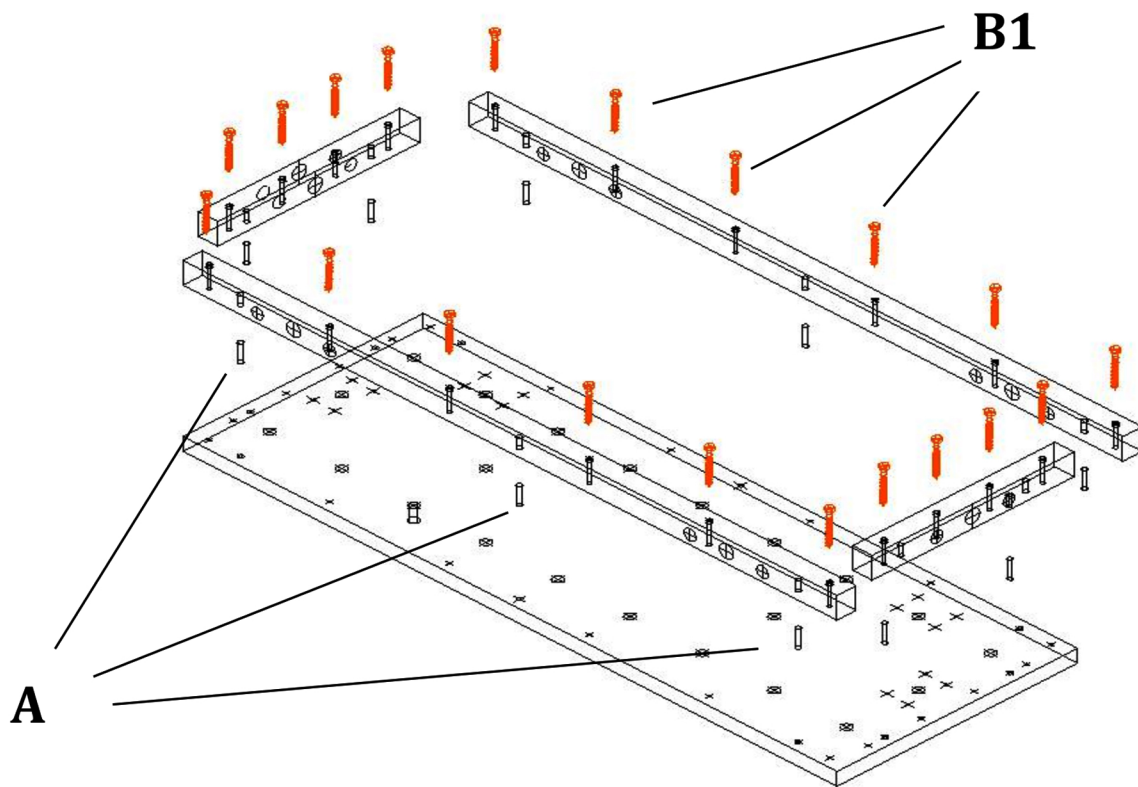

WARNING: Wooden parts may be sharp. Before assembly, check wooden parts and if necessary use sandpaper (part of hardware) to **abrade edges** of these wooden parts.

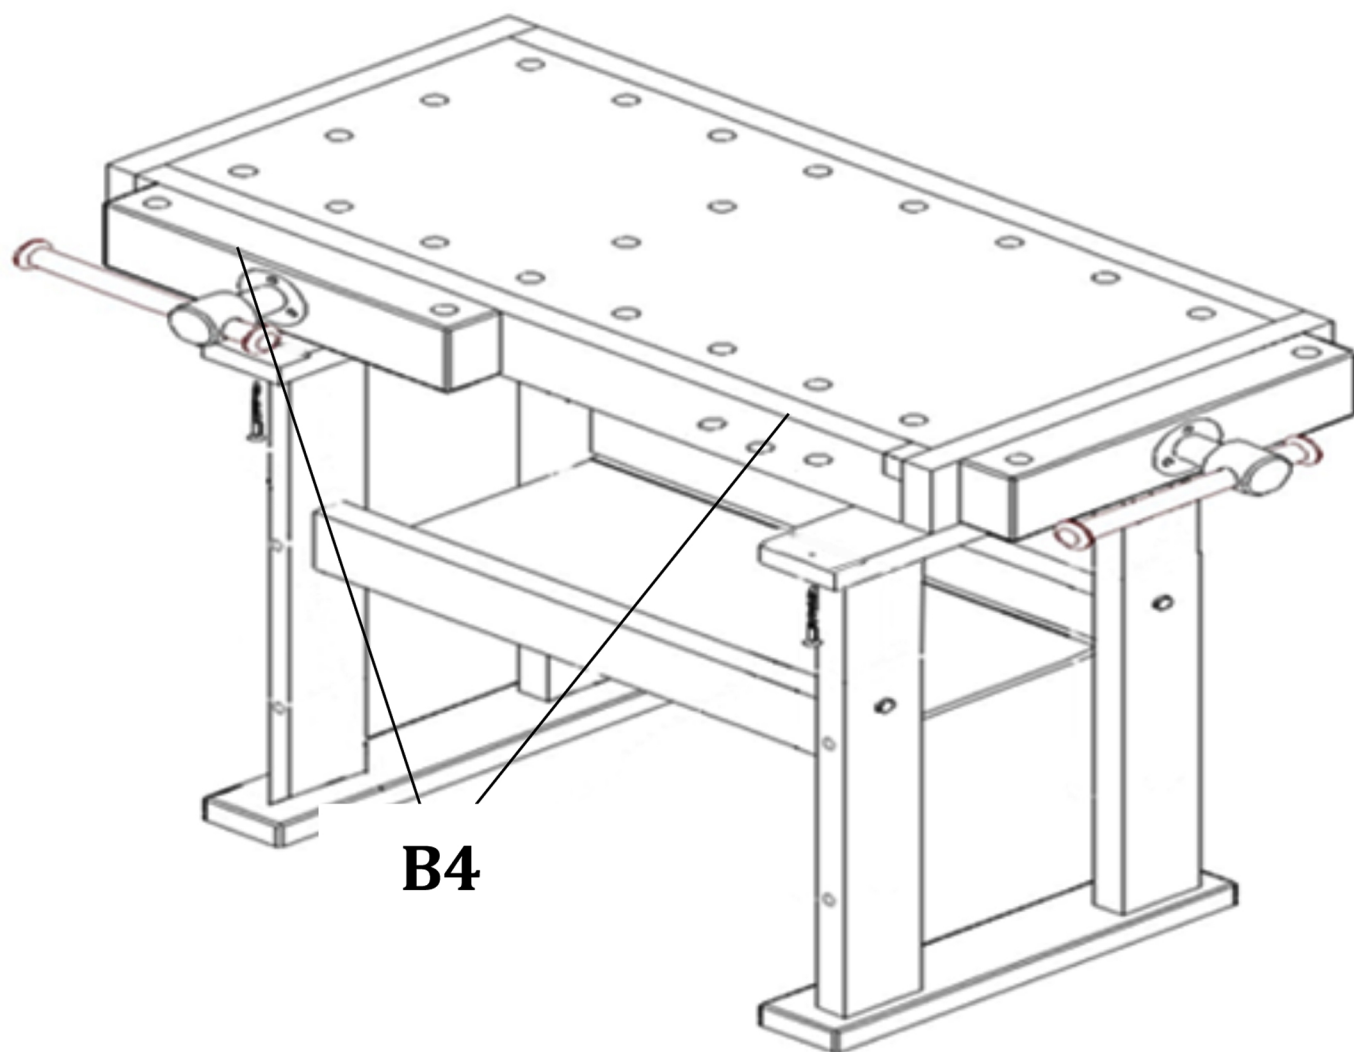

!!!! Abrade edges of these wooden parts, if necessary !!!!

Before assembly of tool shelf, decide, if you want to have deeper or shallower shelf. Grooves must be down to get deep shelf (as shown on the picture).
