

Template Guide Bushing and Adaptor Selection

Leigh dovetail jigs require a router fitted with a guide bushing. An adaptor may be required to fit the bushing to the router.

DIRECTIONS **A.** Locate name of router maker in Column 1. **B.** Locate router model in Column 2. If your router is not listed visit leighjigs.com for a complete, up-to-date list of routers. **C.** Locate adaptor required for your router in Column 3. • Order Leigh adaptors (part numbers in red) in Column 3 from Leigh. • Order Bosch adaptors RA1100 and RA1126 in Column 3 from Leigh or your Bosch dealer. • Order all other adaptors in Column 3 from the router manufacturer's dealer. **D.** Guide bushings in Columns 4, 5 and 6 fit all adaptors listed and may be ordered if required. See notes below chart.

1 ROUTER MAKER	2 ROUTER MODEL	3 ROUTER ADAPTOR	4 7/16" OD BUSHING ◆	5 1/2" OD BUSHING ●	6 5/8" OD BUSHING ▲	7 WORKS WITH VGS

◆ The e7 elliptical guide bushing (7/16") is supplied with the Leigh D4R Pro and SuperJigs for routing dovetails and box joints. Order only if you require a replacement. The 711C/711TP* guide bushing (7/16") can also be used, but only for routing dovetails. ● The 1/2" (e8) guide bushing is used only on Leigh F3, F24 and F18 Finger (Box) Joint Templates. ▲ The 5/8" (716C or 716TP*) guide bushing is used for 1/2" shank through dovetail bits on the D4R Pro. The 5/8" (e10) guide bushing is used on Leigh F3, F24 and F18 Finger (Box) Joint Templates. ■ MAFELL – Rework adaptor slightly. **Adaptor Mounting Screws:** Included with router.

* Note: The 711TP and 716TP guide bushings have been replaced by 711C and 716C guide bushings.

Router not listed? If your router is not listed in the chart above, you may be able to fit a universal baseplate to your router. Please contact Leigh for assistance.
